## SUMMARY

A passionate and skilled developer with a strong focus on building intuitive, efficient, and well-constructed web applications. Committed to continuous learning and professional growth, I thrive in collaborative environments with high-performing teams. Eager to contribute my expertise in delivering high-quality, user-centric solutions that drive innovation and business success.

## EXPERIENCE

### Full-stack Developer

#### Bitflow Agency

06/2023 - Present Remote

a Blockchain Development Agency

- I have successfully fulfilled client requirements across multiple blockchain networks, including Ethereum, Polygon, Binance Smart Chain, and Solana, ensuring secure and efficient decentralized solutions.
- Huge experience in NFT marketplaces, NFT sales, Defi, near-blockchain projects(p2p exchangers, automatic exchangers, turn-based games with backend logic + contracts, etc)
- Made Mobile versions for frontend as well as Frontend web versions.

### App Developer

#### Pibooq

01/2022 - 05/2023 Panama

educational IT production firm

- Full-time developer for the implementation of a web system integrated with a chatbot on WhatsApp.
- A mobile app with the same functionality.
- Developed 20+ high-quality mobile apps using React Native, delivering pixel-perfect UI/UX designs that exceeded client expectations.
- Consistently met project requirements by ensuring optimal performance, responsiveness, and seamless user experiences across both iOS and Android platforms.

### Full-stack Developer

#### Savvy DeFi

07/2021 - 12/2021 Miami, Florida, United States

Company Description

- Simplified Savvy MMC(Market Making Campaign) participation and increased the number of engaged users by 40%.
- Introduced MMC Zapper, an automated solution that exchanges users' collateral into 50% svTokens and 50% collateral tokens, effectively eliminating the need for self-liquidation processes.
- Streamlined asset management for users, improving liquidity and simplifying complex transactions within the blockchain ecosystem.
- Architected and launched the Savvy monorepo, optimizing code quality and streamlining developer workflows, leading to a 50% decrease in deployment time and a 20% increase in feature delivery speed.

## EDUCATION

### Bachelor of Science - BS

#### Colegio Ambrosio Plaza

09/2015 - 07/2019

### Computer engineering

#### Universidad politécnica territorial de los Altos Mirandinos Cecilio Acosta

09/2021
